(54) **Apparatus for and method of displaying pseudo-three-dimensional image**

(57) A pseudo-three-dimensional image displaying apparatus displays a pseudo-three-dimensional image, as viewed from a given viewpoint, of a moving object whose three-dimensional coordinates and rotational angles have been established. The pseudo-three-dimensional image displaying apparatus has a memory for storing a history of coordinates and/or rotation angles of the moving object, a viewpoint calculator for determining coordinates and/or rotation angles of the viewpoint based on the history, stored in the memory, of coordinates and/or rotation angles of the moving object, and a data calculator for generating and displaying an image as viewed from the viewpoint at the coordinates and/or rotation angles determined by the viewpoint calculator.

**ANNEX TO THE EUROPEAN SEARCH REPORT  
ON EUROPEAN PATENT APPLICATION NO.**

EP 98 10 2110

This annex lists the patent family members relating to the patent documents cited in the above-mentioned European search report.  
The members are as contained in the European Patent Office EDP file on  
The European Patent Office is in no way liable for these particulars which are merely given for the purpose of information.
